What does a model Clinical Trials Center look like?
Please introduce the African Clinical Trials Consortium (ACTC)
Why was the ACTC formed?
Who are key stakeholders and their roles in the ACTC?
What is the strategic plan for ACTC?

How does ACTC plan to enhance clinical trials in Africa?
How do you propose to structure the coordinating center and the CTUs?
What is the strategy for the roll-out of the ACTC?

Is it by therapy or region?
Is there a plan in place by ACTC to facilitate the development of CTUs across Africa?
I know that you held a training program on CT last year to increase CT workforce in Africa. Any future plans for additional training?
How can one get involved with the ACTC?
What is IATA training? How can it be accessed?
What is facility risk?
For Dr. Delva Shamley ...

If you amend GCP recommendation, should this be documented?
For Dr. Delva Shamley ...

Can the delegation of responsibilities log serve as a way to document modification?
